

-ll- and -rr- verbs in the preterite and pluperfect

The 2021 SWF specification means that we are now keeping -ll- and -rr- throughout in verbs with those roots. This **changes** the spelling of some verbs in their preterite and pluperfect tenses from that shown in the 2020 (blue) and 2022 (purple) editions of the indispensable SWF verb book, edited by Tony Hak. 'Dylo' was in fact correct in the 2020 edition after all.
